

**Project Title:** CATALIST

**Programme:** Civitas VIFP

**Municipality of Florence:** Coordinator

**Reference Unit:** European Projects Unit

**Budget:** € 73.375,00

**Status:** Completed

**Opening date:** 01/07/2010

**Closing date:** 30/06/2011

**Submitted:** 2010

**Objectives and activities:** The goal of this project was to design an appropriate freight distribution plan for urban areas, paying particular attention to the historical city centers. The point of view of the plan was sensitive to environment, tourism, and art. This project aimed to analyze the most significant experiments regarding the logistics of freight transport carried out under the European Programme Civitas (in Genoa and Stuttgart) and to assess the possible transfer of the achieved outcomes within the urban area of Florence.
